# celebrateplay THEME Cards

***The cards that do the thinking for you by determining a theme for you and your little learners to follow each week.***

Thank you so much for downloading this product. I am passionate about providing you with pretty and practical resources that support you when organising play for the early learners in your home.

**WHY** you will love having a weekly theme:

- It is one of the easiest ways to tackle a lack of ***play inspiration***
- It provides children with meaningful learning opportunities that promote making connections
- Offers YOU some structure in the day which helps avoid difficult times when trying to think of something creative to do

## **HOW TO USE**

1. Print out each page on paper or cardstock and laminate.
2. Place in a container (tin, jar, tub, cup, basket, box) and then store in your play space where there is easy access.
3. Each week or fortnight choose a card to determine theme and plan your play experiences around this theme.

If you would like a theme to be included, please contact me.

This document is for individual and personal use only. You may save this on your computer and print it to use in your home. It is not to be reproduced or distributed in any form. If you love it and want to share it with your family and friends, please direct them to our website so they can obtain their own copy.

Thank you.  
*Erin xx*
