

Getting Started

Welcome back to the Project PLAY Membership. It is great to see you here again.

By now you will have started browsing through the content available in the portal and hopefully started deep diving into the information at the welcome – available in written form and video.

The next step is moving to here – Getting Started!

This is a quick mini lesson walking you through the membership, how to get started, how to use the success path and how to navigate your way through the content available.

The PLAY Portal has content broken into different categories.

These categories are:

- Toddler PLAY and
- Preschool PLAY

Then within these two categories are more specific categories focusing on your specific needs and interests.

These include:

- Welcome
- Getting Started
- Success path
- Daily PLAY Plans
- Masterclasses
- Q + A sessions
- Mini Lesson
- 7 Days of Invitation to PLAY Challenge
 - Courses
- Facebook Community
- Project PLAY Packs
- Project PLAY Glossary
 - Bonuses
- PLAY space Audit
- Editable PLAY Planner

Getting Started

Each month new content is added to a variety of these categories eg, daily PLAY Plans, masterclasses and Q + A sessions, Project PLAY Pack, mini lesson and/or bonus.

You can also see some categories at present are absent with content as this is the direction of where I see the membership heading based on feedback from members and my thoughts on what will best serve this community.

I have ordered the categories in a way that is progressive to one's PLAY journey.

Starting with the introductory lessons, then moving into the monthly content that will support you on a daily basis with play in your home, and then moving to the deeper content that will support you with the underpinning principles of play-based learning and ways you can nurture the flow of play in your home.

I hope this walk through of the membership has been helpful. If you have any questions, be sure to send them through to my inbox either as a DM, PM or email.
